

Ambassador (Ret) Ram Aviram

Ambassador Aviram is specialized in Hydro-Diplomacy.

His experience is based on over 35 years of multilateral and bilateral diplomacy, while serving in high ranking positions at the Israeli Ministry of Foreign Affairs also as Chief of Staff of H.E. Shimon Peres and Ambassador to Greece.

His career at the Ministry was highly connected to hydro politics and water related issues. His responsibilities included Director of Water and Environment Department and Head of Israel's negotiating team on water issues within the framework of the multi-lateral peace process. He participated in numerous international forums and multilateral negotiations on environment and water issues between Israel and its neighbors.

He is writing often on cross-boundary water issues. His recent publications "Desalination as a game-changer in transboundary hydro-politics" (Water Policy, 2014) and the article "A thorny Turkish water-pipe with a light at the end..." (Activate, 2016)

He is a founding member of Israel Desalination Association.
